"The traditional security channel is fragmented with relatively few national players. ADT, Vivint, and MONI are the largest national players in the residential market, each with its own unique business model. Guardian Protection Services, Vector Security, and approximately 100 other regional dealers occupy the mid-market while approximately 13,000-15,000 local independent dealers constitute the balance of the market," said Dina Abdelrazik, Research Analyst, Parks Associates.
