Synopsis	Smart Home Device Owners and Purchase Intentions

This report examines the smart lighting ecosystem of products and services for the connected home with attention to four industry segments: standalone lighting systems, lighting systems for self-installed home control platforms, lighting systems for interactive security services, and custom installed lighting for whole home systems. It addresses key industry players, market drivers, and industry trends in lighting devices and systems and provides five-year forecasts for selected smart lighting devices.

Smart Lighting Device Purchase, Adoption, and Intention
U.S. Broadband Households

■ Purchasers in 2015   ■ Owners   ■ Intenders
