

Synopsis

The Wireless Multimedia LAN: Requirements and Outlook

By Kurt Scherf, Vice President, Principal Analyst, and Harry Wang, Research Analyst

4Q 2006 **Wireless Technologies in Networked Households**

Synopsis	wireless lechnologies in Networked Households
This comprehensive report probes the features and applications of next- generation Wi-Fi 802.11n technology, examines market requirements for wireless multimedia networking, compares & contrasts competing technologies, analyzes industry issues and the competitive landscape, and predicts market size and demand for a variety of wireless multimedia applications, including home networking equipment, computers, and fixed and mobile entertainment CE devices. Publish Date: Dec 06	Types of Wireless Technologies in Networked Households Types of Wireless Technologies Used (August, 2006) (Q83. What wireless technology does your home network use? n=365) Wireless G MIMO (802.11g MIMO) 9% Wireless A + G (802.11a/g combo) 6% Other (Bluetooth, Cellular, etc.) 8% Wireless N (802.11n) 2% Source: Digital Media Habits, an Internet Survey of 2.060 U.S. online Households 92006 Parks Associates *802.11n will emerge as a stable Wi-Fi standard in 2008 and gradually replace 802.11g as the dominant Wi-Fi choice for wireless home networking," said Harry Wang, research analyst, Parks Associates. "The fact that consumers favor wireless access for the home network, coupled with 802.11n's technical merits, such as higher throughputs and more robust QoS, will power the growth of new entertainment platforms such as digital
	media adapters and wireless TV set-top boxes."
Contents	
The Bottom Line <i>is a</i> concise, executive- level summary of the current state of the market, evolutionary path, and the implications for companies doing business in this space. A Parks Associates' Resource Book	 The Bottom Line 1.0 Notes on Methodology 1.1 Consumer Data 2 Definitions 3 Scope of Report 2.0 Home Networks: A Current Snapshot 1 The Early Market: Data Connectivity 2 Multimedia Networks: PC-to-CE 3 Entertainment Networks: CE-to-CE 4 Overview of Home Networking Solutions 5 Current Status of the Market: Wi-Fi Dominates for Data Connectivity
contains a wealth of consumer survey data and company profiles— a must-have reference for product/market planning.	 3.0 Understanding Wi-Fi's Evolution 3.1 802.11a/b/g 3.2 Key Challenges to Wireless Networking 3.2.1 Throughput at Range 3.2.2 Interference 3.2.3 Multipath Fading

Figures	
	The Bottom Line
	Most-Valued Applications for a Home Network
	Recent Trends in the Digital Media Adapter Category
	Set-top Box Manufacturers' Home Networking Strategies
	Network Storage Technologies and Major Vendors
	Types of High-end Video Servers
	Overview of Home Networking Solutions
	Network Media Used for Data Connectivity
	Data Network Growth: 2005-2010
	Wireless Networking ICs and Product Implementation
	Pre-n Chipset Vendors and Product Features
	Draft 802.11n's Mandatory and Optional Specs
	Atheros' Test on Cost/Performance Tradeoffs for Different Antenna
	Configuration
	Comparisons of 802.11n and WiMedia UWB
	Market Momentum for UWB as Wireless Multimedia Backbone
	Status of Global UWB Spectrum Regulation
	Powerline Communication Silicon Vendors and Product Features
	Vendors of Silicon Products for MoCA Standard
	Examples of Home Wireless Routers/PC Adapters Using Next-Gen Wi-Fi
	Service Providers' Interest in Next-Gen Wi-Fi Solutions
	Examples of Next-Gen Wi-Fi Equipped Laptop Computers
	Categories of Technology Platforms for Wireless Multimedia LAN Applications
	Size of TAM for Wireless Multimedia LAN Applications (Chart)
	Size of TAM for Wireless Multimedia LAN Applications (Table)
	Sales Forecast of Wireless Multimedia LAN Applications: By Units (Chart)
	Sales Forecast of Wireless Multimedia LAN Applications: By Units (Table)
	Resource Book
	Network Media Used for Data Connectivity Hybrid Home Network is the Most Popular Choice
	Type of Wireless Technology Used
	What Additional Nodes Have Home Network Users Attempted to Connect?
	Top Problems Experienced with Home Networks
	Rate the Process of Connecting New Nodes to the Home Network
	Top Five Most-Valued Applications for a Home Network
	Next Five Most-Valued Applications for a Home Network
	Purchase Intentions for Home Networking Components or Management
	Software
	Network Nodes Most Likely to be Purchased
	Wireless Vs. Wired Households: Age Comparison
